

# POPULATION HEALTH RESEARCH INSTITUTE

Founded in 1999 as a joint research institute of:  
McMaster University and Hamilton Health Sciences Corporation

Evolved from Preventive Cardiology and Therapeutics Research  
Program (established in 1992)

# PHRI's Mission

“To conduct research that improves major health outcomes for people across the world”

# PHRI's Vision

“To transform health outcomes through pioneering research, operational excellence, and collaborative partnerships”

# PHRI'S Philosophy and Mandate

Large, Simple, Randomized Trials

Provide leadership in international  
health research

Active in the education of individual  
researchers

Build capacity internationally for the  
development of global research  
programs

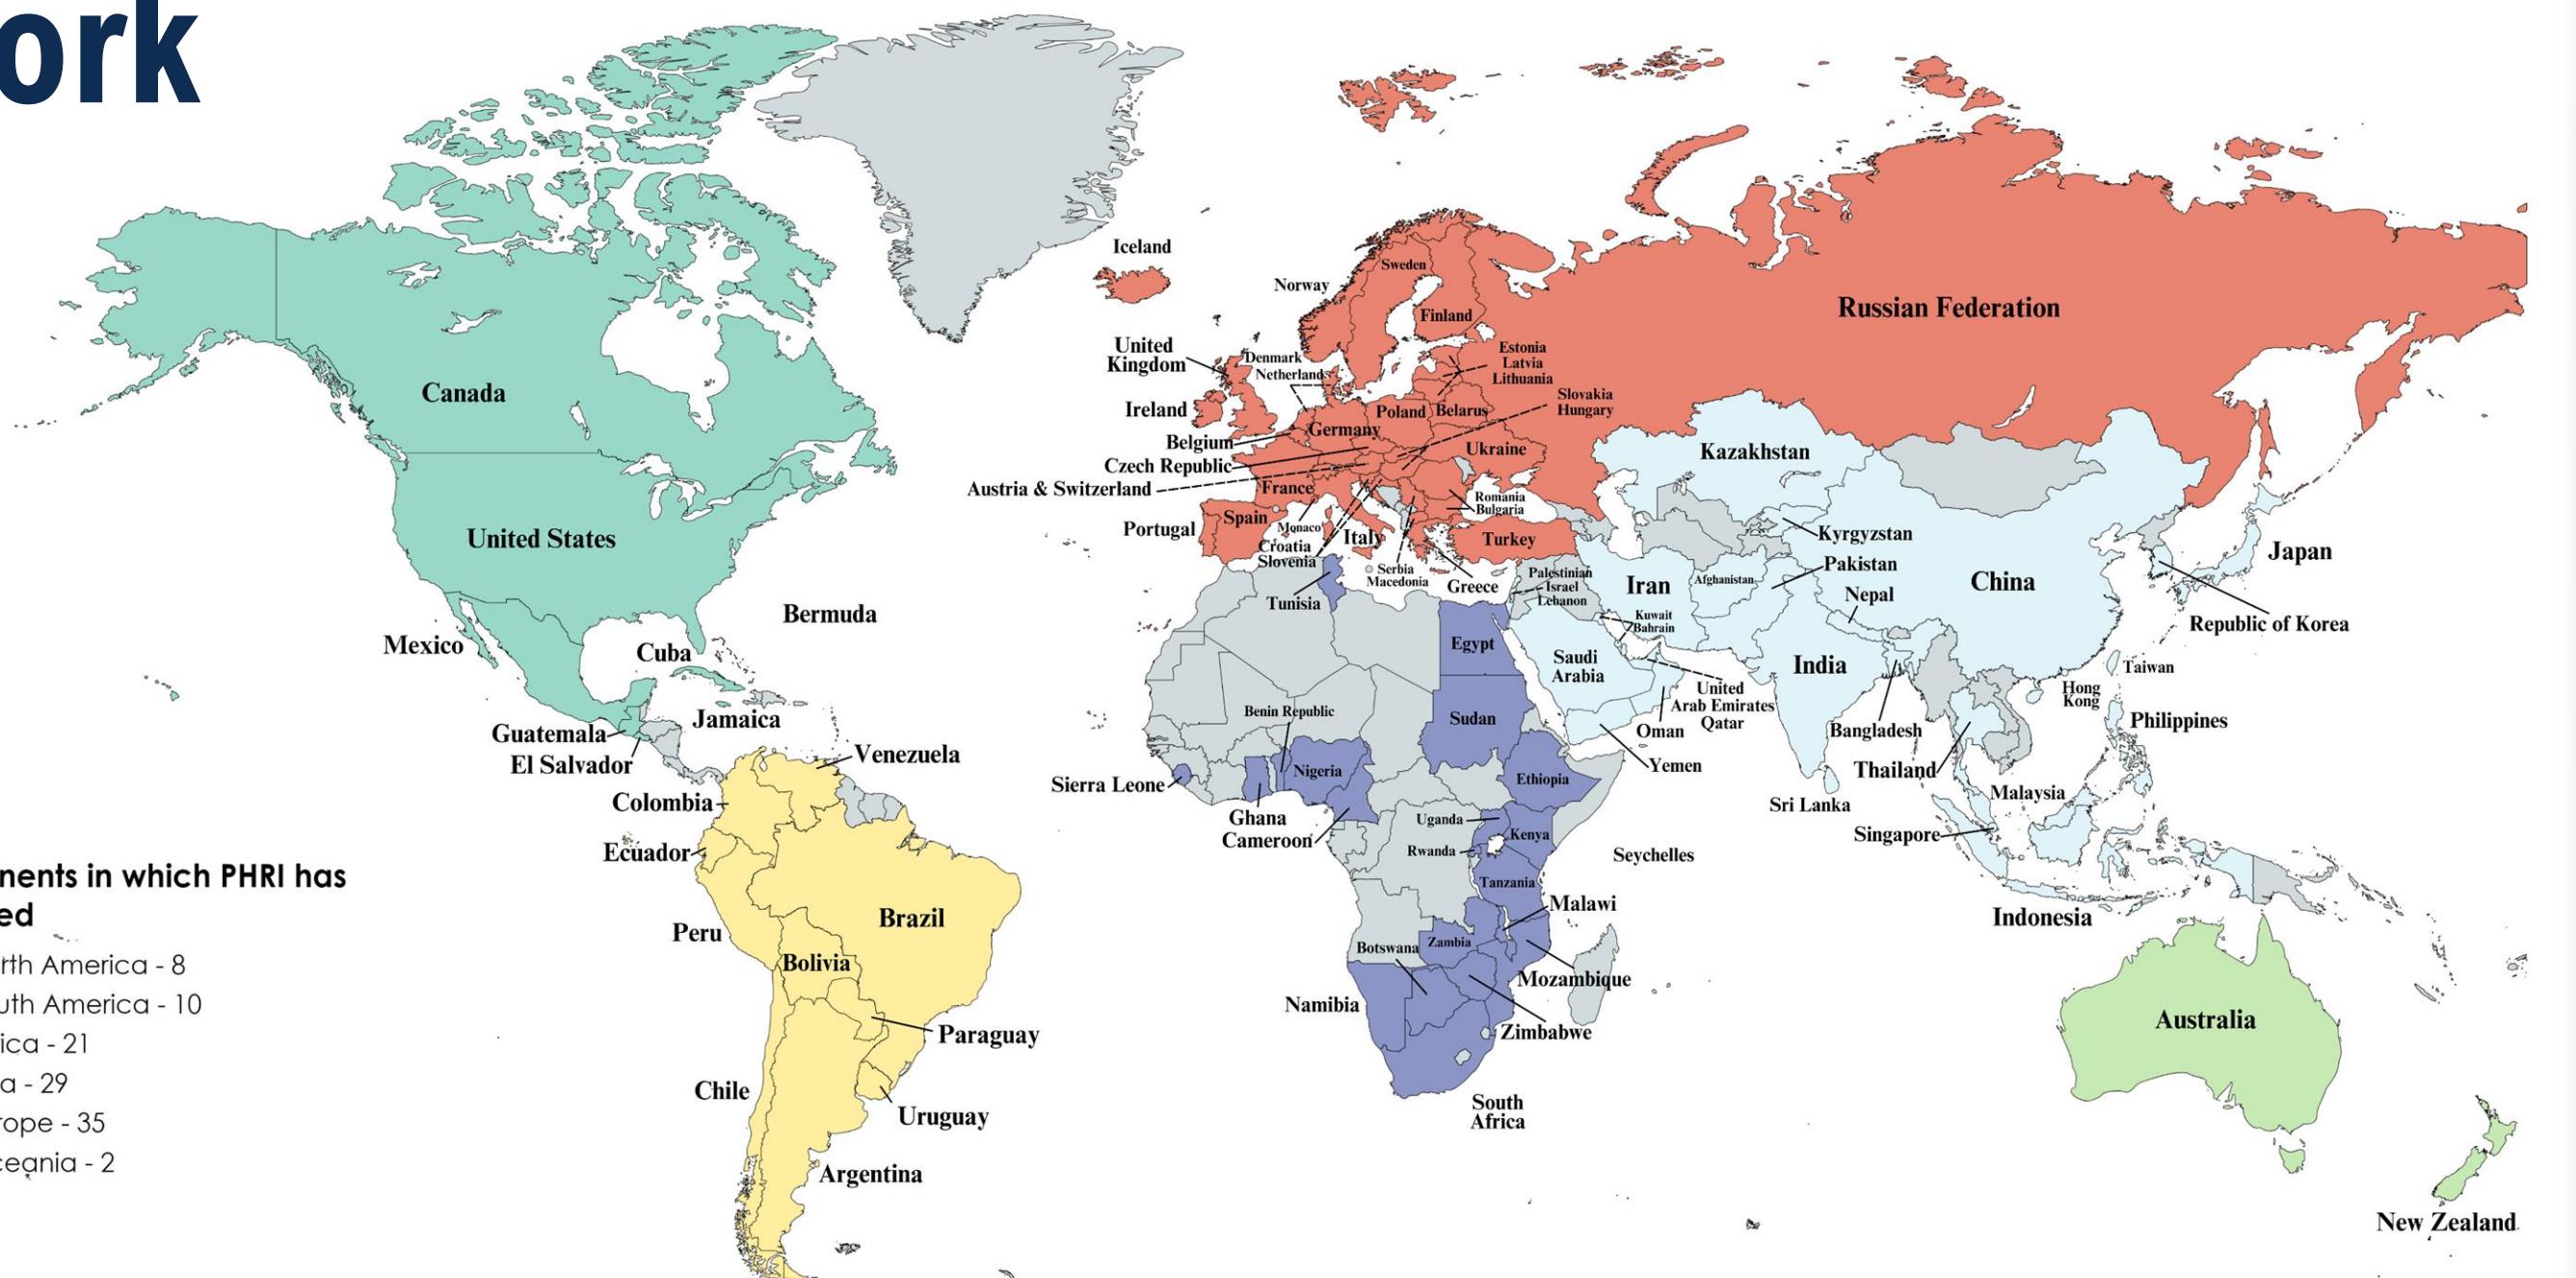

**Population Health  
Research Institute**  
HEALTH THROUGH KNOWLEDGE

 Hamilton  
Health  
Sciences

 McMaster  
University

# Global Network

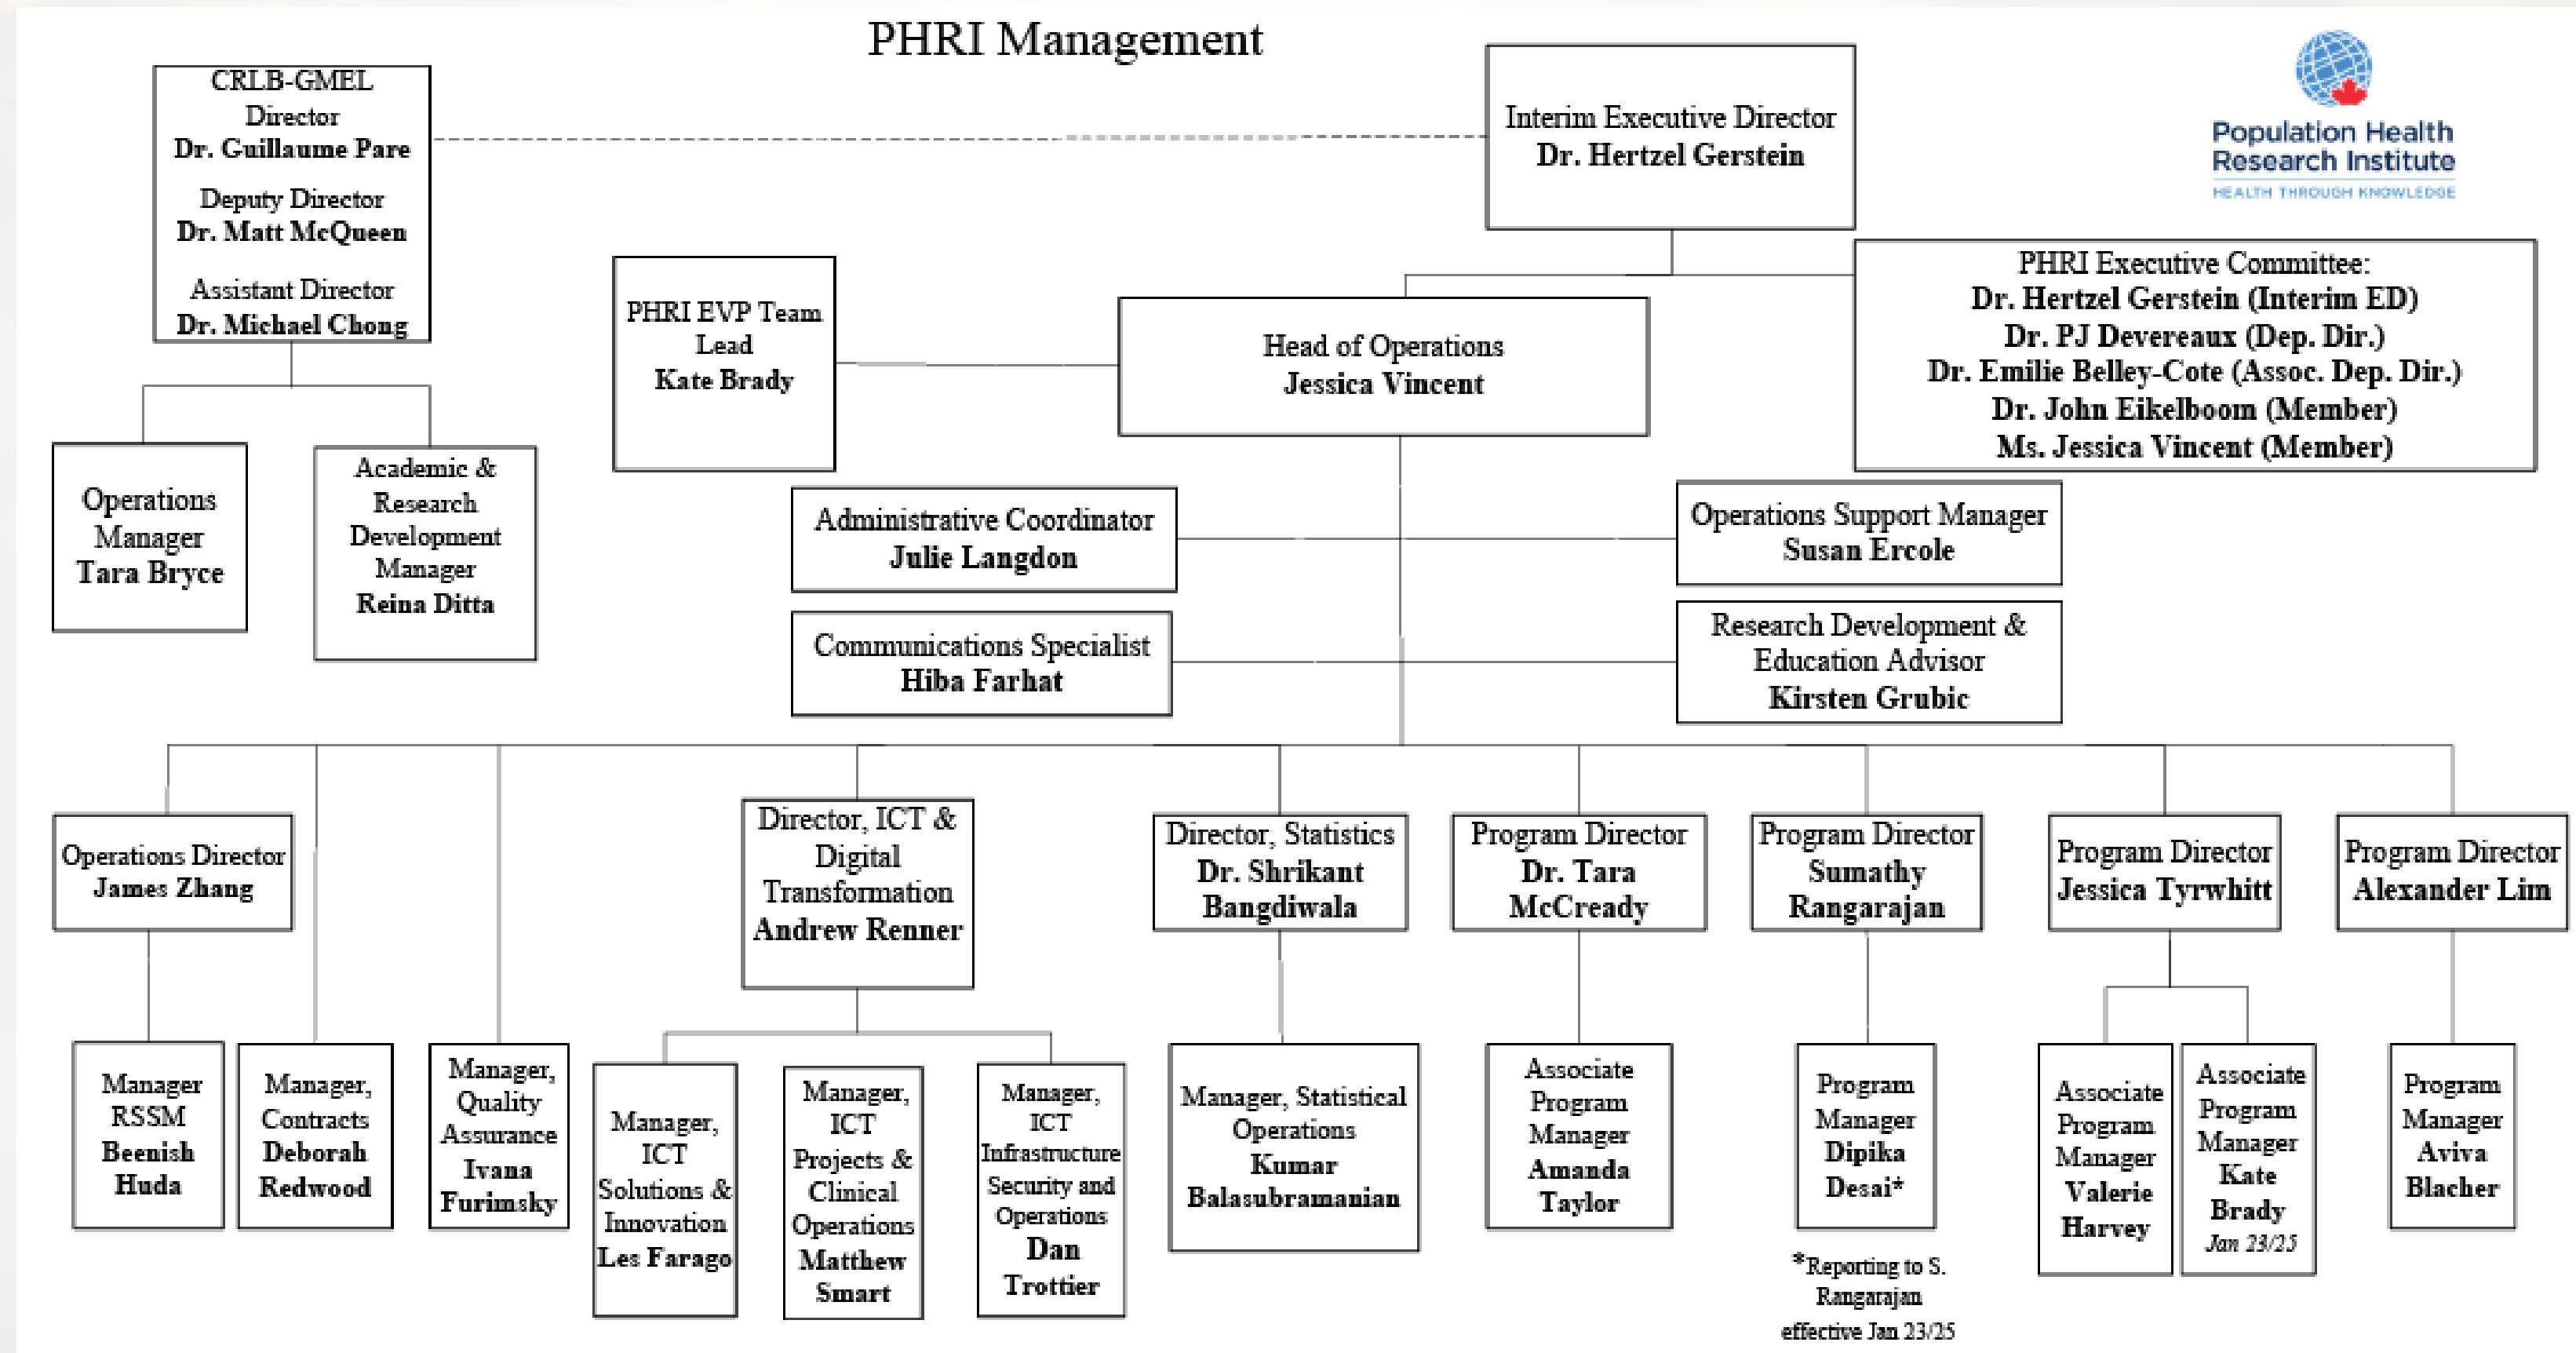

- 6 CONTINENTS
- 105 COUNTRIES

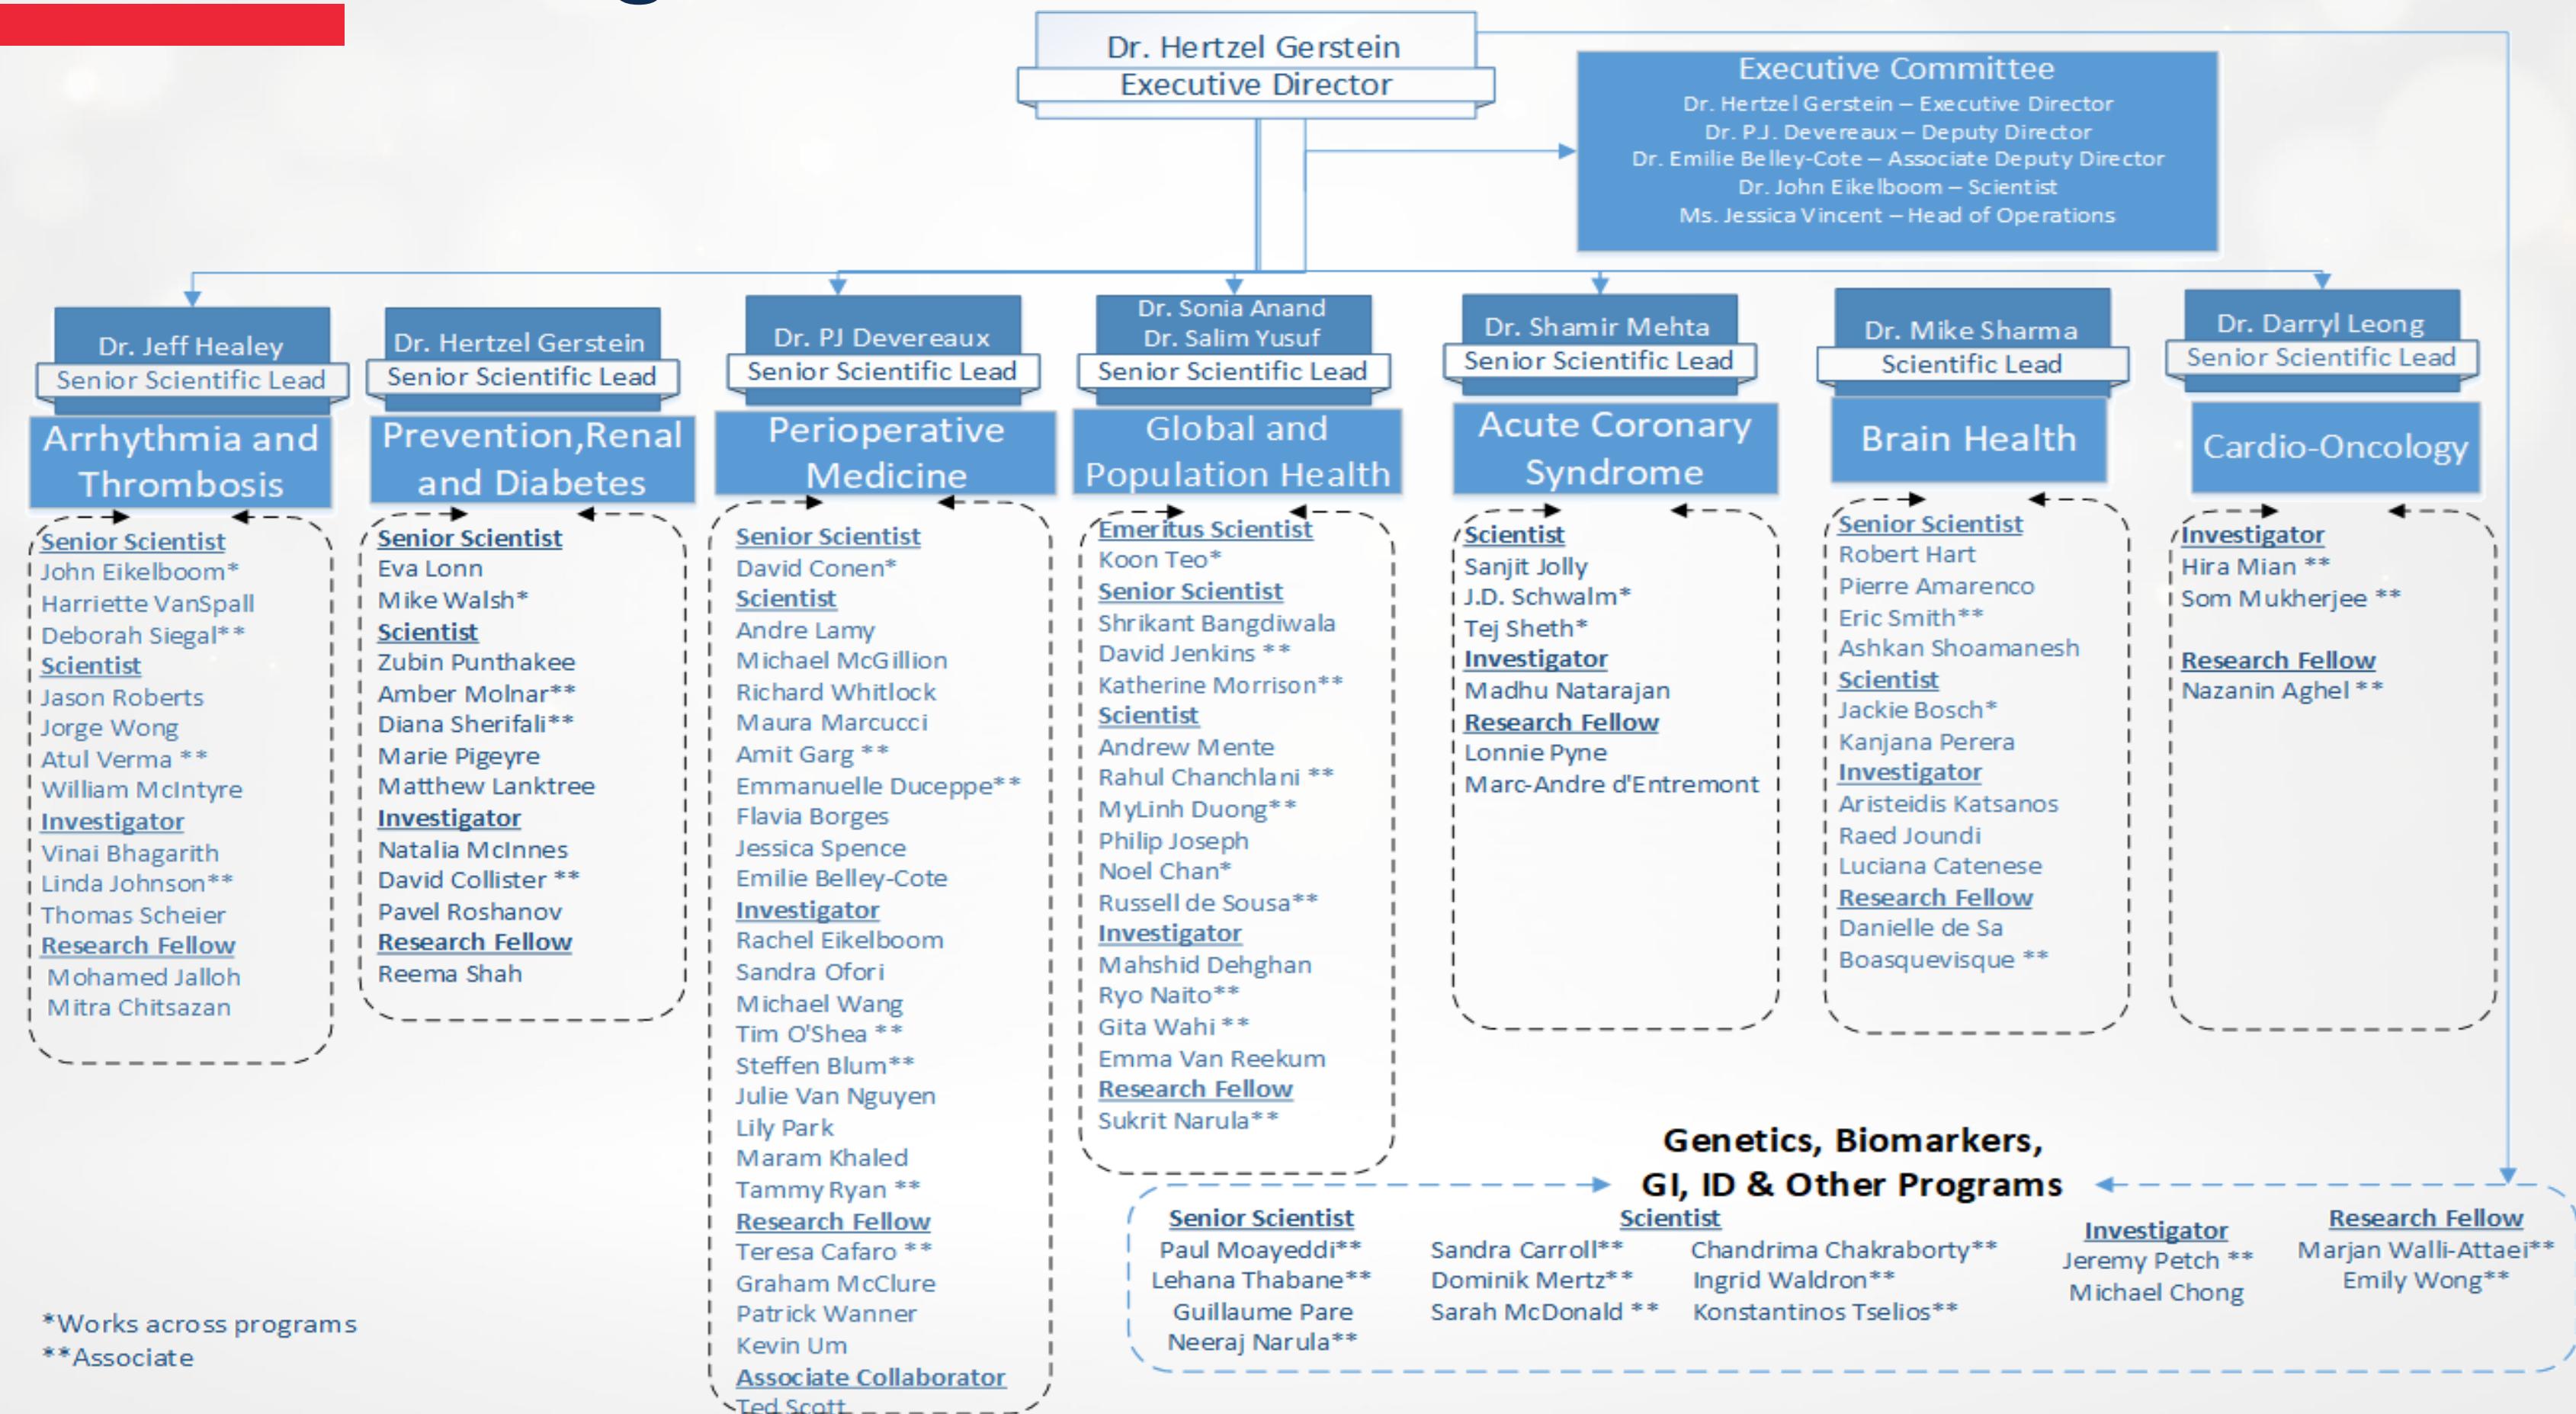

# PHRI Staff and Researchers

Researchers	101
• 64 Full-Time Researchers	
• 37 Associate Researchers	
Programs and Study Teams	184
ICT	63
Statistics and Data Management	44
Finance	15
Contracts	13
Administration, HR, Communication, Education & Operations	12
RSSM & QA	8
Executive (ED & HOO)	2
<b>Total</b>	<b>442</b>

# Management Team

# Scientific Organization

# Research Areas Developed

---

- Perioperative Medicine
- Renal
- Stroke
- Genetics

# New Program Initiatives

---

- STRIVE – Translational Research Program
- VICTOR – Virtual Care
- Brain Health
- Obesity

# PHRI's Integrated Approach

---

PHRI's success stems from integration of expertise in:

- Knowledge of the disease
- Clinical perspective
- Trial methodology
- Research operations
- Data analysis and regulatory submissions
- Dissemination of results
- Creating global network of expert collaborators

# Our Capabilities

---

- Study Hypothesis, Concept and Design
- Protocol Development
- Study Direction and Oversight
- Committees (Steering, adjudication, publication)
- Site Management
- Coordination of Drug Logistics
- Data Management
- Contracts
- Finance

# Our Capabilities

---

- ICT
  - Validated custom and commercial systems
- Quality Assurance
- Clinical Research Laboratory and BioBank (CRLB)
- Core-Lab management
- Statistical analysis, reporting and dissemination of results
- Rapid Publications and Presentations
- Scientific support with Regulatory Submissions

# Key Accomplishments

---

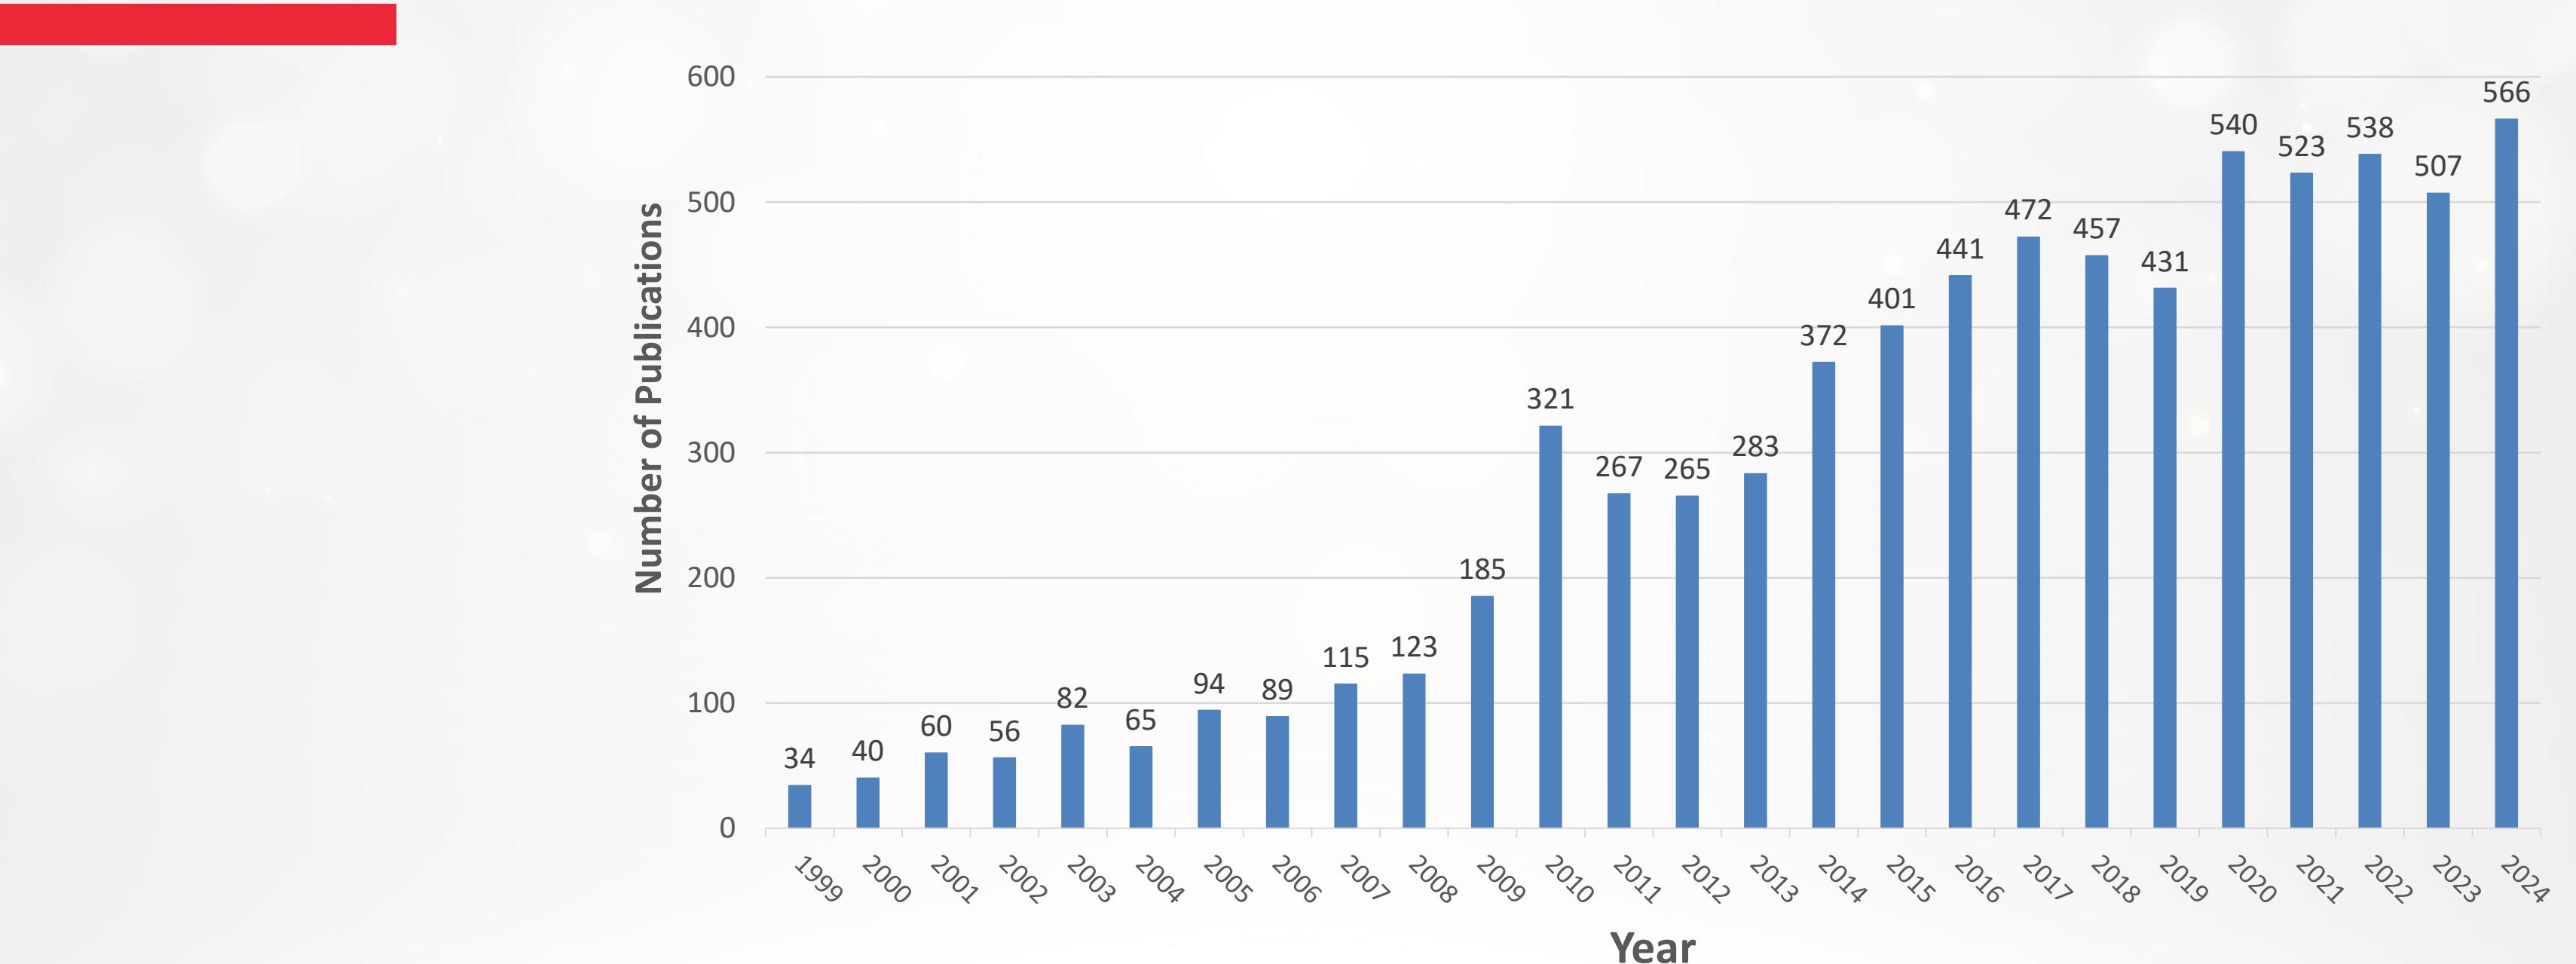

- > 6,000 publications since 1993
- > 250,000 participants currently enrolled worldwide in > 75 clinical studies
- Total participants enrolled in PHRI studies: >1,000,000
- Of our top-cited publications, 35 have >1000 citations
- 11 studies supported regulatory approvals globally
- 4 PHRI researchers named as top 1% of Top Cited authors
- S. Yusuf - named as top author of RCT-related publications in High Impact Journals

# SCIMAGO Rankings | Health Research in Canada

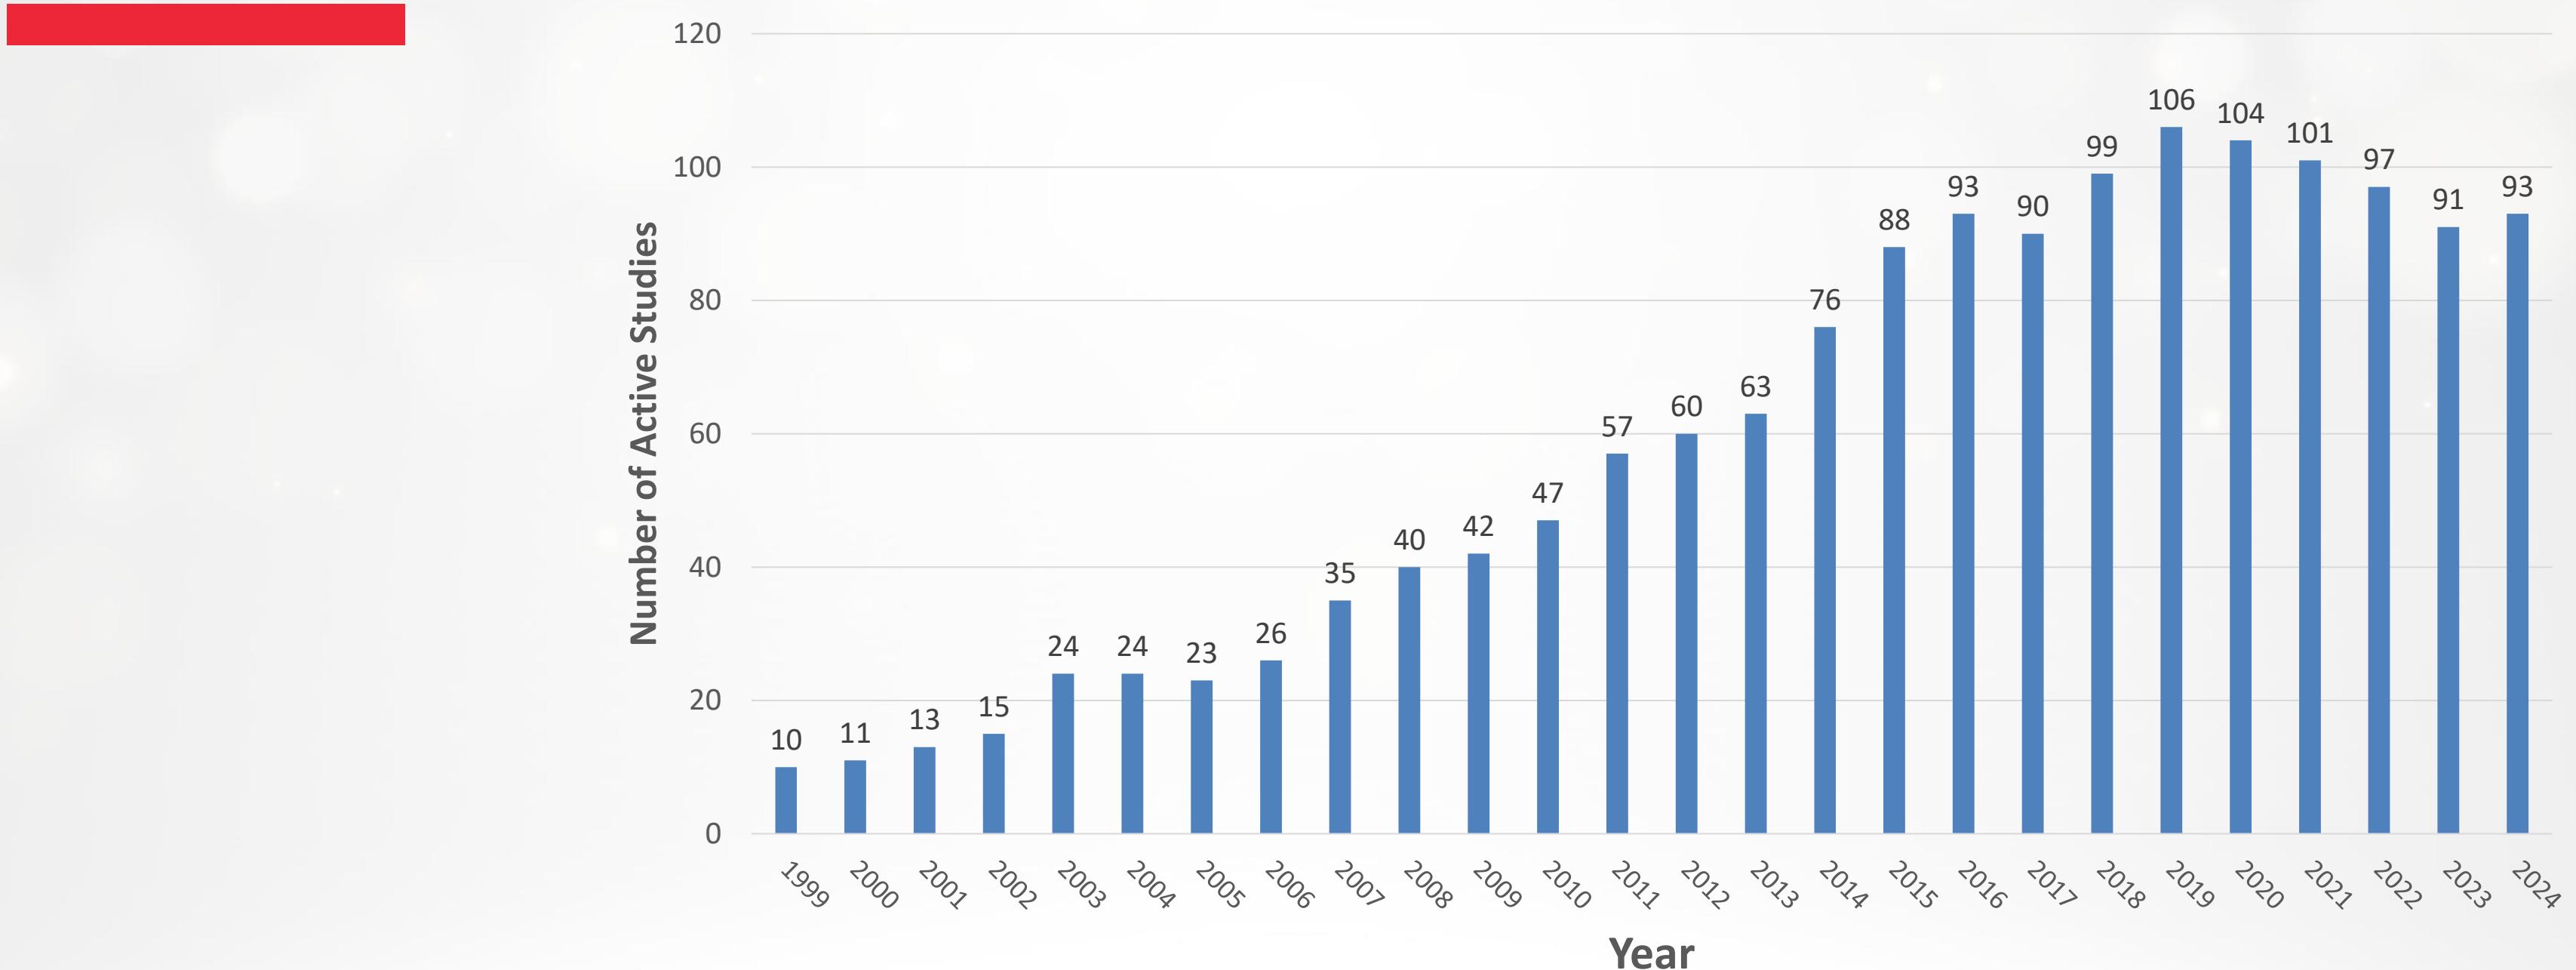

*Health research ranking refers to the volume, impact and quality of the institution's research output*

	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024

# Research Productivity

# Research Study Count

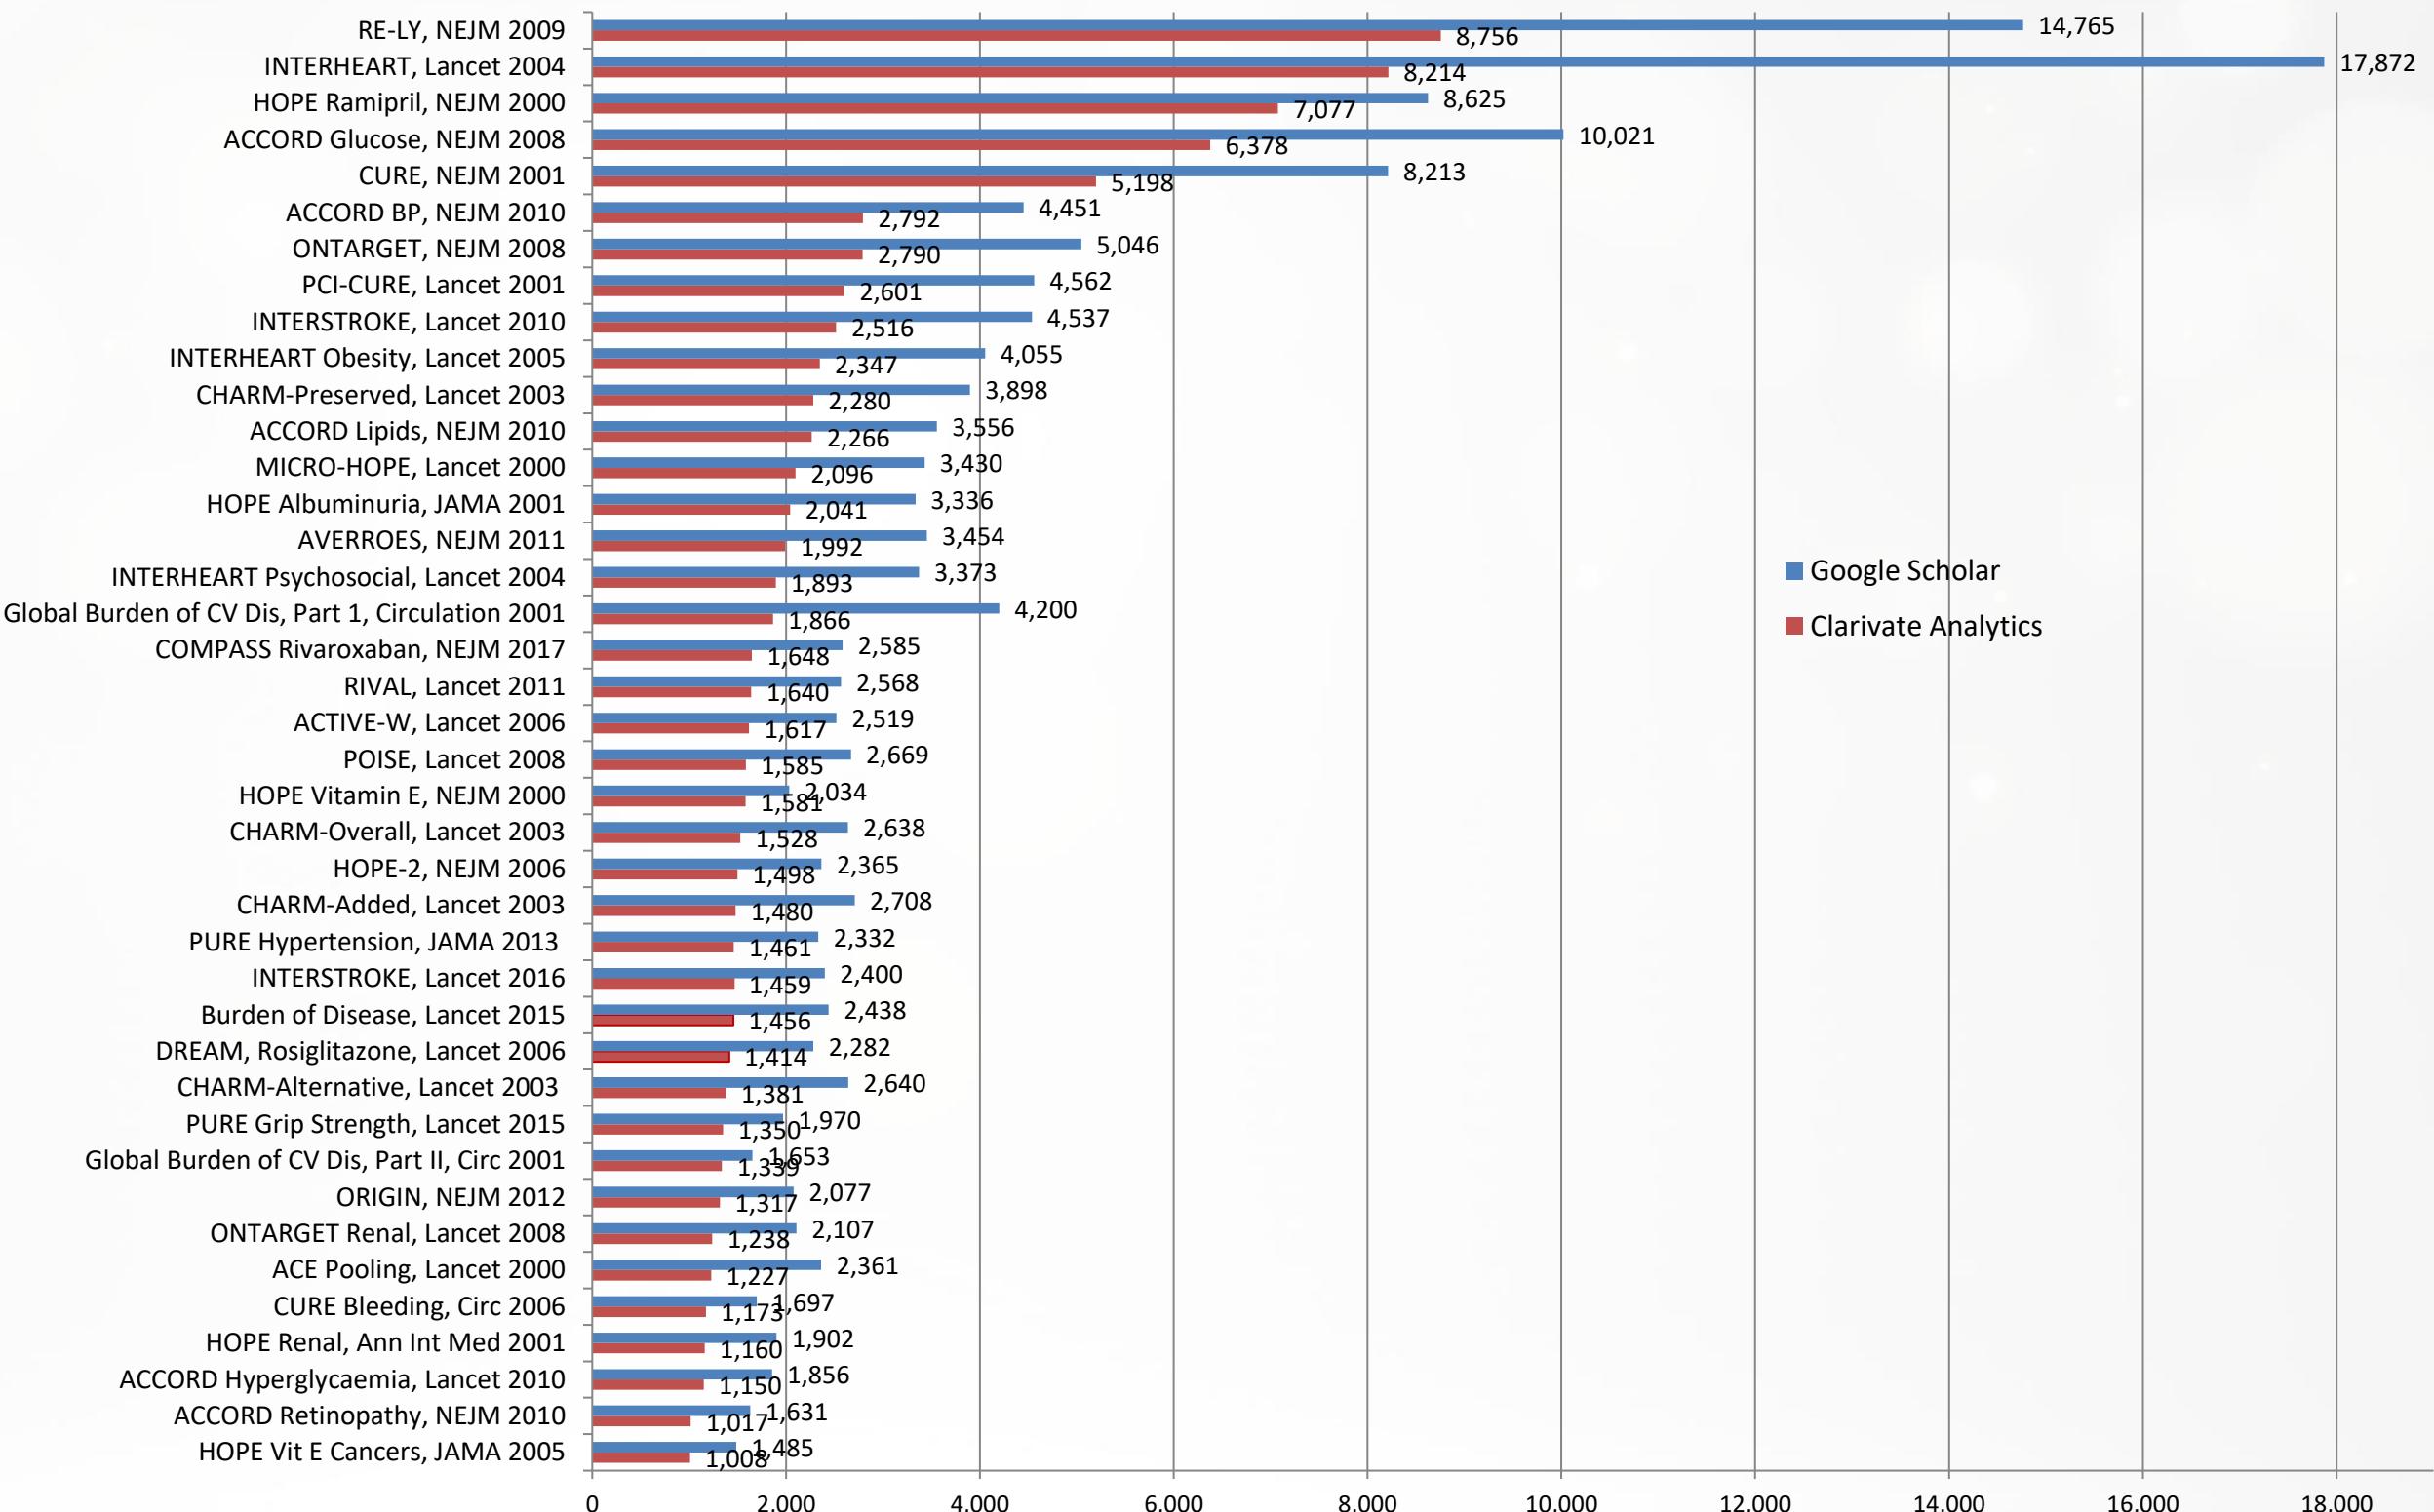

# High Impact Publications

# Publications with >1000 citations

Number of Citations - January 8, 2025

# Studies led to Regulatory Approvals

Study Name	Drug	Indication
HOPE	Ramipril	Secondary Prevention
RESOLVD / CHARM	Candesartan Metoprolol CR	Heart Failure Heart Failure
OASIS-4	Clopidogrel	Unstable Angina/Non-STEMI
OASIS-5	Fondaparinux	Unstable Angina/Non-STEMI
OASIS-6	Fondaparinux	ST Elevation MI
ONTARGET / TRANSCEND	Telmisartan	Prevention of CV Disease
RE-LY	Dabigatran	Prevention of Stroke in AF
AVERROES	Apixaban	Prevention of Stroke in AF
COMPASS	Rivaroxaban	CAD / PAD
REWIND	Trulicity	Reduce the risk of MACE
ANNEXa-4	Andexanet Alfa	Anti-coagulation reversal for life-threatening or uncontrolled bleeding
